- Remove PPE immediately after handling this product. Wash outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Only for formulation into end-use insecticide products intended for the following uses: 1. animal food processing or manufactured products; 2. animal food or feed containers or dispensers; and 3. uses for experimental purposes that are in compliance with US EPA requirements. Consult Central Garden & Pet Company before using this product for formulating purposes. Each formulator is responsible for obtaining EPA registration for their end-use insecticide product(s). This product may be used to formulate products for any additional uses not listed on the technical label if the formulator, user group, or grower has complied with US EPA data submission requirements regarding the support of such uses.

Products formulated with this product may be fed to beef and dairy cattle, including breeding cattle, lactating dairy cattle, growing and finishing cattle and calves, either in dry lot or on pasture up to slaughter and to lactating dairy cows without withholding milk from market during or after treatment. Products formulated with this product may also be fed to horses including ponies, burros, and donkeys.

Products formulated with this product may be fed to swine including nursery, grow-finish, and breeding stock, sheep and goats with no withdrawal period.

PRODUCT INFORMATION: ClariFly® Larvicide Manufacturing Use Product 8% is used as a starting material for manufacturing of EPA-registered supplements, premixes, and other end-use products containing diflubenzuron. (See Product Mixing Directions table)
